# Sanbot **NANO**

----- Quick Start Guide -----

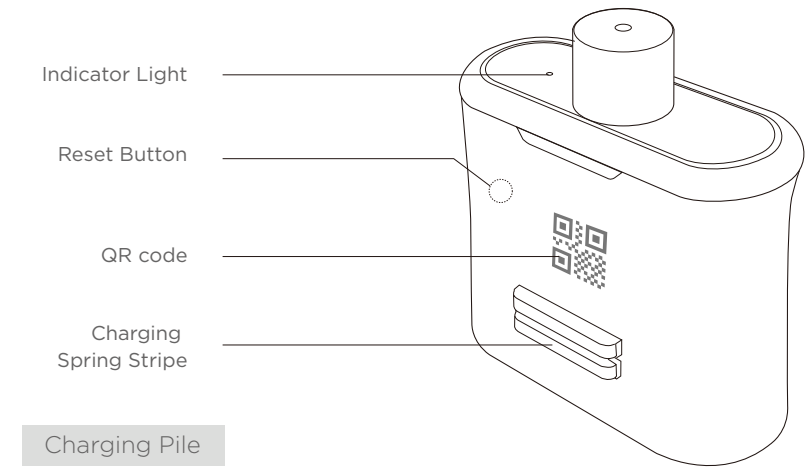

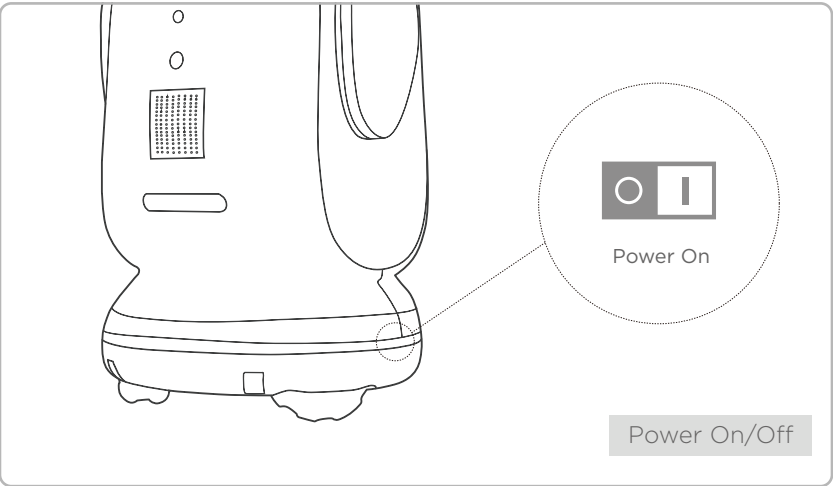

Getting to know your Sanbot Nano |

## Power on your Sanbot Nano

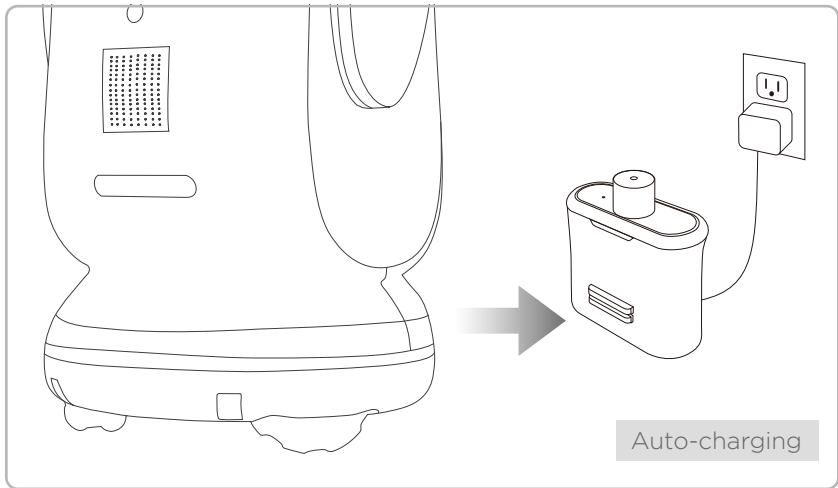

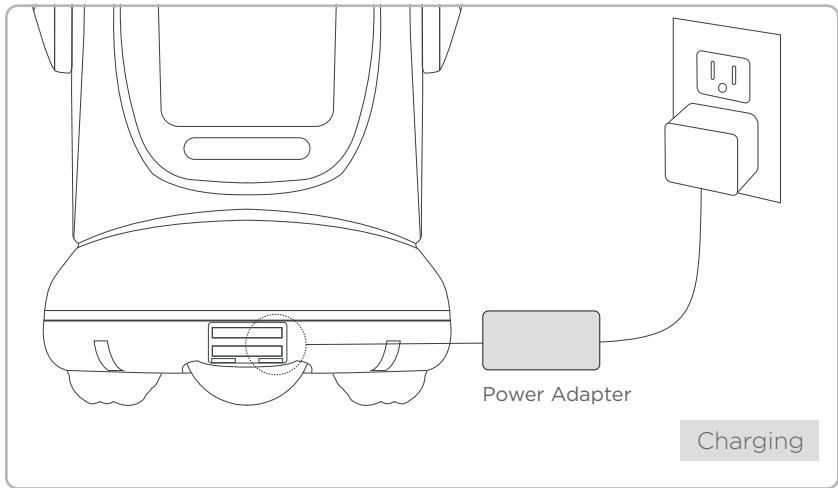

To turn on your Sanbot Nano, switch the power button, which is located on the magnetic charging stripe (bottom part of the back). Sanbot Nano will move its head, hands, and body during the process. The screen will turn on and show the Setup Wizard.

## Charge your Sanbot Nano

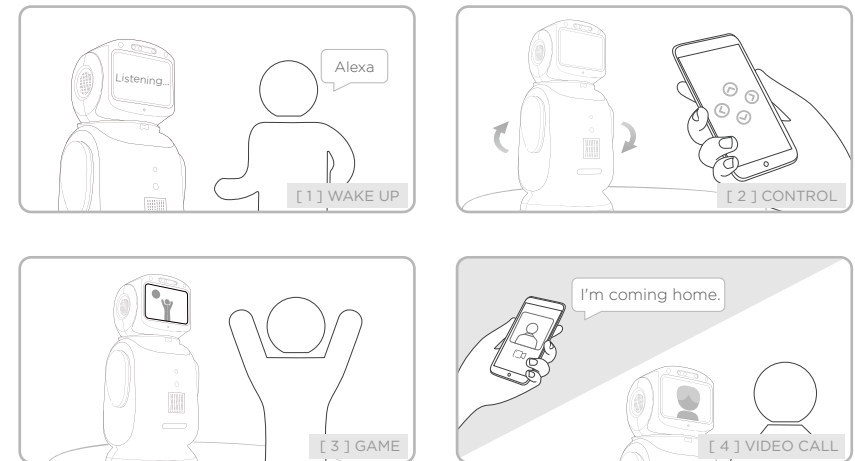

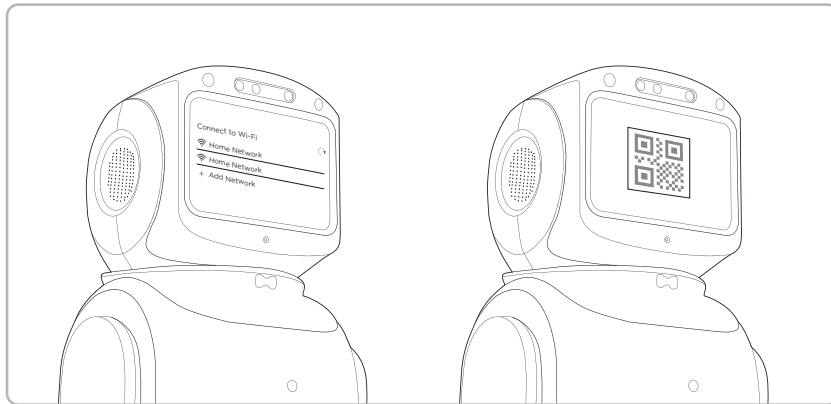

If the battery is lower than 20%, you must plug the power adapter into your Sanbot Nano.

To set up Auto-charging, refer to the card "How to charge your Sanbot Nano".

## Setup your Sanbot Nano

Follow the on-screen instructions to set up your Sanbot Nano. During setup, You will connect your Sanbot Nano to the internet, so have your Wi-Fi password, Amazon login, and Home Q-link login available. ( Download the Home Q-link app to your phone and sign up for a Sanbot account )

\* See "Things to Try" part to help you get started.

### Floating button

1. Return: Short press the floating button on the screen to return.
2. Quick Menu: Long press the floating button on the screen to pop-up Quick Menu. You can quickly turn off microphone and Wi-Fi, adjust volume and screen brightness and return to home page in Quick Menu.

Short press: Return  
Long press: Quick Menu

### Alexa App

Download the free Amazon Alexa App to your phone or tablet. The Alexa App helps you get more out of Alexa Voice Service. It's where you can manage contacts, view your to-do and shopping lists, remotely control music on your Sanbot Nano, link your accounts, access Settings, and more.

Start the download process in your mobile browser at <http://alexa.amazon.com>.

ALEXA APP

## Getting started with your Sanbot Nano

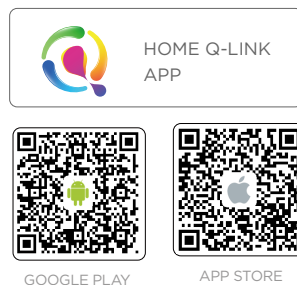

### Interacting with your Sanbot Nano

1. To wake up your Sanbot Nano, say "Alexa". Alexa Voice Service will not be available while other applications are running on the screen. Return to homepage to make it work again.
2. Your Sanbot Nano can be remotely controlled and monitored by the Home Q-link App. Scan the QR code on Sanbot Nano to add it to your Home Q-Link.
3. To play motion games with Sanbot Nano, swipe right and select a game.
4. To make a video call on Sanbot Nano, swipe left and choose a contact that has added your Sanbot Nano into their Home Q-link.
5. To access Settings, open the App "Settings" on the screen.
6. To get more help on trouble shooting, open "Help" on Sanbot Nano.

## Home Q-link App

Download the free Home Q-link App to your phone or tablet. The Home Q-link App lets you remotely control your Sanbot Nano to move, dance and show the funny looks. You can also get home view and make a video call to your family with Sanbot Nano. *Start the download process in your cell phone by searching the keyword "Home Q-link" at App Store(iOS) or Google Play(Android).*
